

DLV Series Liquid Ring Vacuum Pumps

DLV Series Liquid Ring Vacuum Pumps

Introduction:

DLV series two stage liquid ring vacuum pump is our new design based on 25K pumps and combines Germany double-stage pump design criteria. This series has two compression processes, with steady suction speed in high vacuum, or keeping the high vacuum in a wide range of suction speed. Its efficiency in high vacuum is 35% - 40% higher than that of single stage pump, but with less energy consumption.

Advantages:

- Wider range of suction pressure. Compared to other double stage pumps (suction pressure 50) mbar - 150 mbarA), DLV pump works in 25 mbar ~ 1013 mbar pressure, with less energy consumption, with 15% - 20% lower than traditional ones.
- All kinds of models to fulfill various process requirements.
- Materials are optional to make the pump possible to work in various harsh environments. Such as carton steel, stainless steel, dual-phase steel, titanium, etc.
- Scope of supply are optional, such as: pump head, pump with suction communicating pipes, pump aggregate with motor and base frame, complete set of closed cycle system with all auxiliary devices, the system with two or more stages when the inlet pressure is smaller than 33 mbar (abs).

- Single or double mechanical seal and several flush method.
- Precise casting, high standard accessories, imported bearing: high efficiency and energy saving.

Application:

DLV series pumps are very suitable for the process of vacuum drying, evaporation, distillation. concentration, filtering, degassing in industry of food, pharmacy, chemical, power plant, paper making, textile, metallurgy, etc.

Technical Specification:

Model	Motor speed	Motor power		Max. suction capacity		Ultimate vacuum		Inlet&outlet port
		kW	HP	m3/h	CFM	mbar	Inch Hg	mm
DLV-110/ DLV-120	1450	3.0	4	110	65	33	1.0	DN 40
	1750	4.0	5.5	132	80	33	1.0	
DLV-140 -	1450	4.0	5.4	145	85	33	1.0	- DN40
	1750	5.5	7.4	174	102	33	1.0	
DLV-180 -	1450	5.5	7.4	186	109	33	1.0	DN40
	1750	7.5	10.1	223	131	33	1.0	
DLV-300 -	1450	7.5	10.1	283	167	33	1.0	- DN50
	1750	11.0	14.8	314	185	33	1.0	
DLV-350	1450	11.0	14.8	342	201	33	1.0	DN50
